In our small school, any behavioural issues are identified and supported quickly and with the full support of families. Our Responsible Behaviour Plan for Students talks about children being, and allowing others to be *happy, safe and learning* whilst at school. Behaviour choices are regularly communicated, and all students are given support to reach their potential.

Social Climate

Lota State School is part of a small, yet highly supportive community. Our smaller school size allows us to know all students and for all students to know each staff member. These unique relationships are built on trust and mutual respect.

We have a comprehensive Responsible Behaviour Plan for Students which works around the concept of Active Citizenship. We strive to support the notion of students becoming active citizens within our school and broader community.

Our motto is: *happy, safe, learning*. These three words are easily understood by all students. We have implemented a whole school program whereby students, who make appropriate behaviour choices, can be awarded a silver excellence pin at the conclusion of semester 1 and a gold excellence pin at the conclusion of semester 2.

Lota State School is part of the Chaplaincy Program. Our Chaplain Aaron visits our school two days each week and interacts with our students and their families. We operate the mentoring Chaplaincy Program.

'Agree' represents the percentage of respondents who Somewhat Agree, Agree or Strongly Agree with the statement. Due to a major redevelopment of the surveys (parent/caregiver and student in 2012; staff in 2013), comparisons with results from previous years are not recommended.

Involving parents in their child's education

At Lota State School we welcome parents into our school, and actively encourage their involvement in their child's education. Parents can become involved by:

- Providing support within the classroom - reading or maths groups, general classroom assistance, attending end of term activities.
- Attending excursions.
- Becoming an active or supportive member of our P&C.
- Volunteer at school and P&C organised events.
- Volunteer tuckshop duty.

Reducing the school's environmental footprint

Data is sourced from school's annual utilities return and is reliant on the accuracy of these returns.

During 2014 Lota State School continued its Sustainable Environment Management Plan (SEMPlan). We developed this document with the support of the Moreton Bay Environmental Education Centre (MBEEC). This plan sets out how we plan to reduce our ecological footprint. We achieved this by:

- Continuing our Environmental Club and our Vegetable Gardens.
- Paper recycling procedures.
- Separation of waste and composting procedures.
- Ensuring power consumption savings across the school.

Years	Environmental footprint indicators	
	Electricity kWh	Water kL
2011-2012	32,400	620
2012-2013	60,048	708
2013-2014	64,320	558

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into OneSchool by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.

Non-attendance is managed in state schools in line with the DETE policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

At Lota State School we require parents to inform us, before, on or immediately after, a child is absent from school. Should a pattern of absenteeism be noted by the classroom teacher they will immediately notify the Principal. The Principal will then contact the family concerned.
