Lota State School Dress Code

Vision

The wearing of a compulsory uniform provides students with a personal sense of belonging to a group. Our school uniform is a symbol which provides students a way to represent their school, themselves and our community with pride and integrity.

Belief

The community of Lota State School hold the following beliefs about the wearing of a compulsory uniform by students:

- A uniform worn with pride and enthusiasm reflects favourably on the school and community of Lota.
- A uniform worn with enthusiasm reflects on the student's personal integrity as they represent themselves, their families and the community of Lota.
- A uniform worn with diligence positively reflects a child's inner self and their sense of belonging to a like-minded group.

The Lota State School community has agreed on a school dress code for all students, which actively encourages students to take pride in themselves and their school. **This Dress Code was endorsed by the Lota State School Parent and Citizens Committee on 29/10/2019.**

Consistent student dress standards promote a powerful school identity and communicate a positive image of our school as a highly regarded community of learners. We expect that students proudly uphold this image of Lota State School with good standards of dress and behaviour at all times. The Lota State School Dress Code aims to contribute to a safe and supportive teaching and learning environment through:

- Ready identification of students.
- Fostering a sense of belonging.
- Developing mutual respect among students by minimising visible evidence of physical, economic or social differences.
- Minimising exposure to hazards by adopting uniform items that enhance workplace health and safety practices.

Lota State School's Dress Code consists of an agreed set of standards and identifies the uniform our students wear when:

- Attending or representing their school.
- Travelling to and from school.
- Engaging in school activities out of school hours.

Exceptions

At Lota State School we understand that from time to time students may need clothing other than their normal school uniform. This may be because of an inability to wash uniforms, rainy weather not permitting clothes to dry or other family/personal or cultural circumstances.

If your child needs to wear something other than the compulsory school uniform, then a note must accompany your child explaining the situation with a timeframe for rectification. Please see the School Principal if financial hardship is an issue or if you having any concerns.

Non-compliance with Code

A number of approaches may be employed by the school staff in the event students are non-compliant with the school's mandatory Student Dress Code. These approaches will be compliant with the Education (General Provisions) Act 2006. Approaches include:

- Seeking parental support for compliance e.g. letter or telephone call. This may include requesting correct uniform be bought to school for the student.
- Assisting students with genuine economic hardship to acquire uniform e.g. uniform loan.
- Imposing a penalty i.e. Detention for deliberate repeated minors or majors if the non-compliance is impacting access to teaching and learning or doesn't reflect well on the school community inside or outside of the school.
- Preventing the student from taking part in a school event outside the school.
- Preventing the student taking part in a school activity that is not part of the essential education program of the school.

Whatever the approach, the intention of the School Administration will be to ensure every student complies with the Student Dress Code.
